(2) The examiner determines the authorized material for each assignment, and informs the participants about it using appropriate means in due time before the examination.

§ 12 Types and forms of assignments

(1) ¹Assignments as defined in these regulations are individual tasks that are graded by the examiner in line with § 16 section 2. ²In case of group assignments, only the individual contribution of each

participant shall be evaluated; it shall be ensured that within a group assignment the individual contribution of each group member is clearly identifiable allowing a reliable evaluation.

1. written assignments such as exams, term papers, case studies and project work, and
2. oral assignments such as colloquia.

§ 13 Oral examinations

- (1) ¹Minutes from the examination (“Ergebnisprotokoll”) shall be taken during the main course of the oral examination, except the type of examination does not allow for minutes. ²The examination result shall be recorded in the minutes. ³The minutes are to be signed by the examiner, in case of an examination commission by all the examiners of the commission, and to be put on file.

(2) ¹The examination supervisor shall take minutes of written examinations. ²The minutes have to be signed and filed unless the type of examination does not allow for minutes.

(3) ¹The preparation period for assignment or similar written work begins when the topic has been communicated to the participant. ²In case of valid reasons and upon written request from a participant in due time, the Academic Director shall grant individual extensions of the preparation period based on a case-by-case decision. ³A request in accordance with sentence 2 shall be made by the participant to the Program Management immediately upon gaining information on the circumstances justifying an extension, and is only possible within the preparation period. ⁴Should the request not be made in due time according to sentence 3, the circumstances justifying an extension are considered irrelevant for the examination attempt concerned, especially for its assessment. ⁵It is the participant's responsibility to provide sufficient proof of her/his special circumstances upon filing the request for compensation of disadvantages, especially regarding adequacy of the extension period. ⁶§§ 21 and 23 remain unaffected.

(4) ¹According to the rules of the Business School, the members of the Joint Examination Committee and examiners are allowed to use software recommended by the School to detect plagiarism in term papers and similar work. ²Therefore, the participant shall submit one digital copy of her/his work to the Program Management; as a rule, the work should be uploaded on the learning platform Blackboard. ³In accordance with the Data Protection Act of the Land of Baden-Württemberg (Landesdatenschutzgesetz), the work must be anonymized before the plagiarism check. ⁴When submitting the written assignment as defined in sentence 1, the participant shall submit the following signed declaration:

In addition, I affirm that neither I nor anybody else has submitted this paper or parts of it to obtain credits elsewhere before. I have clearly marked and acknowledged all quotations or references that have been taken from the works of others. All secondary literature and other sources are marked and listed in the bibliography. The same applies to all charts, diagrams and illustrations as well as to all Internet resources. Moreover, I consent to my paper being electronically stored and

sent anonymously in order to be checked for plagiarism. I am aware that if this declaration is not made, the paper may not be graded."

§ 15 Examination "Strategic Project" in the area "Final Project"

(1) By passing the examination "Strategic Project" in the area "Strategic Project", the participant shall prove the practical implementation of the acquired knowledge applying scientific methods within a limited period of time.

(2) ¹The examination "Strategic Project" consists of two parts: a written examination in the form of a project work, and an oral examination in the form of a colloquium based on the written part of the examination. ²The project work is a group work; the group should not have more than five members; the Academic Director decides upon exceptions to this rule.

(3) ¹The project work can only be evaluated by university teachers as defined in § 8 section 1 sentences 1 and 2. ²The university teacher who assigned the topic of the project work shall be the examiner. ³The examiner may appoint another university teacher as defined in § 8 section 1 sentences 1 and 2 as supervisor. ⁴The supervisor advises participants on any questions related to the project work, not interfering with the participant's individual performance and responsibility for the project work.

(4) ¹The final topic of the project work and the assignment of respective tasks to the participants shall be determined by the examiner. ²The participants shall be granted the chance to put forward suggestions for a topic and task assignment. ³However, no legal right arises thereof. ⁴The topic for the project work must be determined by the examiner in such a way that it is possible to complete it within the preparation period.

(5) ¹The preparation period for the project work shall be either 12 or 13 months; the exact preparation period is determined in the program guidelines. ²This period starts with the final approval of the topic. ³§ 14 section 3 does not apply to the preparation period of the project work. ⁴The examiner shall inform the Program Management about the beginning of the preparation period and the approved project work topics.

(6) ¹The topic of the project work may be declined by the group in their own responsibility once and only within the first three months of the preparation period. ²If the topic is declined in due time, the group shall be assigned an alternative topic by the examiner; sentence 4 applies to the alternative topic and the task assignments accordingly. ³The preparation period shall not be interrupted due to the change of topic; an extension of the preparation period is not possible.

(7) ¹The project work shall be submitted to the Program Management in due time in hard-copies as well as in a digital form. ²If the project work is not submitted in due time, it will be graded "failed" for all group members.

(8) ¹The supervisor appointed by the examiner prepares an evaluation of the submitted project work. ²After reviewing the evaluation, the examiner determines a grade for each participant for her/his written assignment in accordance with § 16 section 2.

(9) ¹The colloquium shall be carried out after the project work has been evaluated. ²Each participant whose project work is graded at least “Sufficient” (10.00) shall take part in the oral examination in form of the colloquium. ³Those who do not meet these requirements cannot participate in the colloquium and, as a result, fail the examination “Strategic Project”.

(10) ¹For supervising the colloquium, the Joint Examination Committee appoints a four- to five-member examination commission. ²Among its members, there shall be the examiner of the project as its chair, the Academic Director of the external examination and two or three further members who possess at least a master’s degree or an equivalent degree of a higher education institution or are state-certified in the subject of the respective examination. ³The Joint Examination Committee may allow other persons having a legitimate interest to be present at the colloquium, however, these do not have the right to advise or assess.

(11) ¹The chair is heading the colloquium and shall enforce a proper method for assessing the participants. ²All other members of the examination commission are allowed to actively participate in the colloquium.

(12) ¹In accordance with section 9 sentence 2, the participants shall be assessed jointly. ²For each participant, the colloquium consists of a presentation and a Q&A session. ³The structure of the colloquium shall provide assessment time of 10 minutes for each participant.

(13) ¹The examination commission shall grade the performance of the individual participant in accordance with § 16 section 2. ²If there is a discrepancy in the examiners’ opinions, the chair has the deciding vote.

(14) ¹Following the colloquium, the examiner of the project work shall determine the final grade of the examination “Strategic Project” for each participant according to § 16 section 4. ²The grading is based on the individual assessments of both the project work and the colloquium. ³The final grade is composed of the project work (60% of the final grade) and of the colloquium (40% of the final grade).

§ 16 Assessment of examinations; calculation of grades; assessment of the External Examination within the Examination Program “ESSEC & Mannheim Executive Master of Business Administration” (final grade)

(1) The grades for individual examinations are determined by the respective examiner.

(2) For the grading of individual examinations the following numerical values (numerical grades) are to be assigned

20,00-18,00	Excellent
17,99-16,00	Very Good
15,99-14,00	Good
13,99-12,00	Satisfactory
11,99-10,00	Sufficient
9,99-0,00	Failed

(3) If an examination comprises only one assignment, the overall examination grade equals the grade of this assignment.

(4) ¹If an examination comprises several assignments, the overall numerical examination grade equals the weighted mean calculated using the grades of the individual assignments. ²For all examinations

except the “Strategic Project” the examiner determines the weighting of individual assignments for the calculation of the numerical examination grade, and provides details of this on the learning platform.

³The weighted mean according to sentences 1 and 2 is calculated to two decimal places; all further decimal places are excluded without rounding.

(5) The numerical final grade is calculated as the mean of all numerical examination grades weighted according to the ECTS credits in accordance with section 4 sentence 3.

§ 17 Passing examinations; obtaining ECTS Credits

(1) An examination comprising only one assignment is passed if the grade 10.00 (“sufficient”) or better is awarded.

(2) An examination comprising several assignments is passed if the examination grade calculated in accordance with § 16 section 4 equals 10.00 (“sufficient”) or better.

(3) The examination must be passed for ECTS credits to be awarded.

§ 18 Failing and retaking examinations; failing the final examination attempt

(1) ¹An examination comprising only one assignment is not passed if the assignment is graded < 10.00 (“failed”). ²If an examination consists of several assignments, it is considered < 10.00 (“failed”) if the overall examination grade calculated in line with § 16 section 4 is < 10.00 (“failed”).

(2) Failed examinations may generally be retaken once.

(2a) ¹If the participant does not pass the initial examination attempt of an examination in the area “Electives”, she/he can autonomously submit a request to switch to an alternative examination offered in this area (substitute examination), in writing, to the Program Management. ²The request has to be submitted promptly, two weeks after the announcement of the (unsatisfactory) examination grade at the latest. ³A timely request shall be granted if the substitute examination, provided it is an examination taking place during the regular course of the external examination, can be successfully completed within the maximal period according to § 4 section 3. ⁴If a request according to sentence 1 is granted, the examination procedures from which the participant switches are ended by this grant and the participant’s mandatory registration to the next examination appointment of the substitute examination, which is considered a retake attempt, is put into effect.

(3) When retaking an examination consisting of several assignments, the examination in general has to be retaken.

(4) ¹If the participant fails an examination in the area “Electives” definitively, she/he can register for the first attempt at an alternative examination in the area on her/his own responsibility; registrations for examinations from which the participant has previously changed in accordance with paragraph 2a are excluded. ²In addition to the other requirements, admission can only be granted if the alternative examination can still be successfully completed within the maximum duration of the external examination in an assumed regular program progression.

(4a) ¹If an examination in the areas “Core courses” and “Final Project” is failed definitively, the Joint Examination Committee issues a notice declaring the definitive examination failure; the right to be examined is lost in accordance with § 32 paragraph 5 sentence 3 alternative 1 LHG. ²If at least four of the seven available examinations in the area “Electives” are definitively failed, the Joint Examination

Committee issues a notice declaring the definitive examination failure; the right to be examined is lost in accordance with § 32 paragraph 5 sentence 3 alternative 1 LHG.

(5) It is not possible to retake an examination that has already been passed.

§ 19 Breaches of procedure

(1) ¹The Joint Examination Committee may remedy disturbances of the examination procedure or other breaches of procedure by virtue of office or upon request from a participant by deciding on appropriate measures or orders. ²In particular, the Joint Examination Committee may order that examinations shall be retaken by all or by individual participants or, in case the principle of equal opportunities was violated, grant an extension or impose another appropriate measure of compensation.

(2) ¹Disturbances of the examination procedure during the examination shall be reported immediately by the affected participant to

1. the supervisor in case of a written examination and
2. the main examiner in case of an oral examination.

§ 23 Withdrawal and absence

(5) A withdrawal is ruled out if the examination result has been published, unless valid evidence could not be provided earlier by the participant due to reasons beyond her/his control.

§ 24 Cheating and other misconduct

(1) ¹If the participant manipulates or tries to manipulate her/his examination by cheating or using unauthorized resources or by influencing the examiner or supervisor in favor of herself/himself or a third person, the respective examination or further examinations may be graded < 10.00 (“failed”) or the participant may be excluded from the examination depending on the severity of violation. ²In especially severe cases, the participant shall be excluded without the option to retake the examination. ³According

to sentence 1, it is also considered cheating if an assignment or exam contain quotations or references from the works of others, in a written or electronic form, which have not been indicated as such by the participant.

(2) ¹A participant who violates the examination regulations severely, in particular if she/he disturbs the proper course of an examination, may be excluded from the examination by the examiner or the supervisor. ²In such cases, the relevant assignment or examination is graded < 10.00 ("failed"). ³In severe cases, the Joint Examination Committee may exclude the participant from taking any further examinations.

§ 25 Invalidity of the External Examination in the Examination Program "ESSEC & Mannheim Executive Master of Business Administration"

(1) ¹In case the participant has manipulated an examination by cheating and this fact is revealed after the participant has received her/his degree certificate, the Joint Examination Committee may revise the result or the respective grade retroactively and declare the examination as failed. ²If the completion of the external examination is affected by this, the Joint Examination Committee may revoke the respective ECTS credits and, if necessary, declare the external examination as "failed with no option to re-sit".

(2) ¹If the requirements to be admitted to the examination were not met without the participant's intent to disguise this fact and if this fact is revealed after the participant has received her/his degree certificate, this defect is remedied by having passed the examination. ²If the participant attained her/his admission illegitimately on purpose, the Joint Examination Committee may declare the examination and consequently the degree completion for "failed with no option to re-sit".

(3) The participant in question shall be granted the chance to comment on the issue prior to the decision of the Joint Examination Committee.

(4) ¹Inaccurate degree certificates shall be recalled. ²Where applicable, new degree certificates shall be issued. ³Along with the inaccurate degree certificates, the respective diploma shall be recalled if the external examination has been declared "failed with no option to re-sit"; decisions according to section 1 or 2 sentence 2 can only be taken within five years from the issuance date.
